and Tertiary Roads

Route Principales,
Secondaires et
Tertiaires

The Distance Table is a Ministry of Transportation publication providing the official road distances of the Provincial Highways network.

As a handy guide indicating all destination points along Ontario's economic and social lifelines-the highways, it is hoped that the Distance Table will facilitate the travelling public to plan their routes for easy access to various communities in the province, provide the commercial drivers with accurate distances to ensure efficient Just-In-Time delivery of goods and assist the tourists to locate the recreational centres and attractions.

In our continuing effort in seeking new and better ways to serve the travelling public, this booklet will prove to be a helpful companion to the Official Road Map.

Ed Fulton

ED FULTON
Minister of Transportation

Le tableau des distances est une publication du ministère des Transports donnant les distances routières officielles du réseau routier provincial.

Ce guide pratique indique les diverses destinations situées le long des artères économiques et sociales que sont les routes. Le tableau des distances vise à aider les voyageurs à planifier leurs trajets afin de se rendre facilement aux diverses collectivités de la province, à fournir aux conducteurs commerciaux une liste précise de distances afin d'assurer la ponctualité de leurs livraisons et à permettre aux touristes d'identifier les centres récréatifs et les attractions.

Désireux d'offrir toujours davantage de services aux voyageurs, nous publions le présent livret qui est le complément parfait de la carte routière officielle.

A handwritten signature in black ink, reading "Ed Fulton". The signature is fluid and cursive, with the first letters of "Ed" and "Fulton" being capitalized and prominent.

Ed Fulton
Ministre des Transports

FOREWORD

Distances given in this booklet are the official road distances used by this Ministry for the King's and Secondary Highways and the Tertiary Roads in Ontario as of April 1, 1989. Due to ongoing physical changes in the highway network, some distances may, at times, seem incorrect. Also, odometer readings in a car may give slightly different distances due to equipment inaccuracy, frequent lane changing or other driving habits.

All highways are listed in numerical order, with the Queen Elizabeth Way first. The point descriptions along each are listed from east to west or from south to north depending on the general direction of the highway. An X opposite a point description indicates that it is the chosen centre of the municipality named.

Highways in the 400 series, together with the QEW, are generally multi-lane, divided, controlled-access routes. Highways numbered from 2 up are generally conventional highways of two or more lanes.

Highways in the 500 and 600 series are Secondary Highways. Roads in the 800 series are Tertiary Roads. Overlapping highways are shown with a slash between the highway numbers (e.g. Hwy 7/8 or Hwy 11/17, etc.).

Distances are shown cumulatively in both directions including the sections of roads which are not under MTO's jurisdiction. The only exceptions occur where a highway is interrupted for construction purposes or ferry crossings.

The explanations of various abbreviations used in the table are given on the following page. Inquiries regarding this booklet should be directed to the Highway Information Systems Group of the Highway Planning Office, 4th Floor, West Tower, 1201 Wilson Avenue, Downsview, Ontario M3M 1J8.

AVANT-PROPOS

Les distances données dans le présent livret sont les distances routières officielles utilisées par le ministère pour les routes principales, secondaires et tertiaires de l'Ontario en date du 1^{er} avril 1989. En raison des modifications physiques subies par le réseau routier, certaines distances peuvent parfois sembler erronées. De plus, l'odomètre d'un véhicule peut indiquer une distance différente en raison de sa calibration, des changements fréquents de voie et d'autres habitudes de conduite.

La route Queen Elizabeth Way figure en premier lieu, suivie des autres routes classées par ordre numérique. Les descriptions des routes sont présentées en fonction d'une orientation est-ouest ou sud-nord, selon la direction générale de la route. Les descriptions marquées d'un X signifient que ce lieu est le centre de la municipalité.

Les routes de la série 400, de même que la QEW, sont généralement des routes à voies multiples, séparées et à accès limité. Les routes dont le numéro est supérieur à 2 sont généralement des routes conventionnelles à deux voies ou plus.

Les routes des séries 500 et 600 sont des routes secondaires. Les routes de la série 800 sont des routes tertiaires. Lorsqu'un tronçon appartient à deux routes différentes, son indicatif est séparé par une barre oblique (par ex. Route 7/8, route 11/17, etc.).

Les distances sont indiquées de façon cumulative dans les deux directions, y compris pour la partie des routes qui n'est pas du ressort du ministère des Transports sauf lorsqu'une route est interrompue suite à des travaux de construction ou pour le passage d'un traversier.

On trouvera à la page suivante l'explication des diverses abréviations utilisées dans le tableau. Pour tout renseignement au sujet de ce livret, s'adresser au groupe d'information sur la planification du Bureau de la planification des routes, tour ouest, 1201, avenue Wilson, 4^e étage, Downsview (Ontario) M3M 1J8.
